Dear Bob,

This is a letter to thank you for recommending and installing O2Prime in my Cannabis growth facility to eliminate the neighbor complaints of odor. The addition of the O2Prime system is working much better than I expected. The neighbor (approximately 250 feet away from my growth facility) who was complaining about the odor stopped complaining within a very short time after the O2Prime system was installed. I actually checked an exhaust vent and could not smell any odor coming from my growth facility!

Additionally, I noticed a 30% increase of fruit growth on my plants; which is amazing! This was an added bonus as I did not purchase the system to increase the fruit on the plants but to eliminate the odor.

I also wanted to let you know the residential unit you installed in my home is working great, we have not had any sicknesses since the unit was installed.

Thank you again for recommending O2Prime it is a great system and I would highly recommend it to any Cannabis grower that wants to eliminate the odor and get more growth on the plants.

Sincerely,

A handwritten signature in black ink, appearing to be the initials 'AR' followed by a stylized flourish.
